

## Passover Books for Children - compiled by Gail Vail March, 2022

There are **LOTS** of books for Passover - from board books for babies and fiction and non-fiction books (explanations and meanings) for all ages, to haggadahs and cookbooks. You can find them in our Temple Emanu-El library or other synagogue libraries.

Many of you may already receive books from [PJ Library](#). If you don't, click on the link or get in touch with them at the [Jewish Federation of Greater Rochester](#) to sign up.

Here is the [PJ Library Passover Book List](#) page, which contains 50 books. The PJ Library List also specifies the age range for most of the books. Most of these books are also available at the Rochester Public Library. They are **not** included in the lists below, so be sure to check them out!

### Rochester Public Library

If you want to browse books with your kids online, I recommend using the [Kids Catalog](#). It's easy to use, kids can choose categories as well as search for authors, and they can look at the covers of the books.

These books were listed under the Passover search:
